

TOP IT!

Each card contains information about a particular German city and the aim of the game is to compare these values to try to top it and win an opponent's card!

HOW TO PLAY

1. Shuffle the cards and deal in a clockwise direction to all players, keeping the cards face down.
2. Each player should hold the cards in a pile, so only the top card is visible.
3. The first player, to the dealer's left, reads out a category from the top card e.g. Bevölkerung. The other players read out the same category from their card.
4. The player with the highest value wins and collects all the top cards from the other players and places them (along with their own top card) on the bottom of their pile.
5. It is then the turn of the winner of the last round to choose a category from the next card.
6. The winner is the person with all of the cards at the end.
