

(1) Stop One: Haukadalur Geothermal Field

The area around Geysir and the Geysir Centre is the valley of **Haukadalur**. The **geothermal area** is just across the road from the **Geysir Centre**.

- Firstly head for the **information panel** at the entrance **closest** to the **Geysir Centre**.

- The map (fig 24) shows the layout of the **high temperature geothermal** area that you are about to visit:-

TASK A:-

Complete the **key** below (fig 25) for the above map (fig 24) by correctly identifying the volcanic features.

Symbol	Feature (in Icelandic)	Feature (in English)
	Goshver	
	Óvirkur goshver	
	Gufuhver	
	Leirhver	
	Vatnshver	
	Hiti	

Figure 25

TASK B:-

What are the **highest** and **lowest** water temperatures according to the information panel?

Highest water temperature		Lowest water temperature	
---------------------------	--	--------------------------	--

Figure 26

Simply now spend some time walking around this fascinating area, snapping some photographs as you go! If you are lucky you may see Great Geysir "blow"!
