

STAY SAFE

ONLINE.

1 Set up your device to protect your private information.

2 Explore safely and speak to an adult if you see anything that makes you feel strange.

3 Limit who you can hear and who can hear you in online video games.

4 If anyone makes you feel uncomfortable, report and block them.

5 Ask for help if anything online is bothering you.

From cyberbullying to social networking to digital identity, each year Safer Internet Day aims to raise awareness of emerging online issues and current concerns.
